

The British Academy/Wolfson Fellowships 2022-23 Competition

PLEASE READ THESE SCHEME NOTES CAREFULLY
Any application that is incorrectly submitted will be ineligible for award

Aim of the Scheme

The fourth round of competition for the **British Academy/Wolfson Fellowships** continues a joint initiative between the Wolfson Foundation and the British Academy to support the next generation of research and engagement leaders in the humanities and social sciences.

These awards are designed to support early career researchers who show exceptional talent in both research and public engagement, emphasising and demonstrating the importance of academic research and creative thought at a time of rapid political and societal change.

The programme will provide early career academics with the most valuable commodity – time – by releasing them from some of their administration and teaching duties to pursue their research, along with funding for public engagement and travel. The award duration is three years.

Number of Awards and Strength of Competition

It is expected that six awards will be offered in this fourth call, and that they will continue to participate with future cohorts building a network of outstanding researchers.

The third competition last year was extremely popular and attracted a high volume of applications resulting in a success rate of under 10% (similar to British Academy Postdoctoral Fellowships and Newton International Fellowships). We are expecting this fourth round of competition to be popular again.

Responsibilities of Award-holders

Successful candidates will be selected on the basis of the quality and interest of the research project proposed in the application, and on the expected contribution to be made to public understanding. Award-holders are expected to play an active role engaging with a wide range of British Academy award-holders, including other Wolfson Fellows, during the period they hold the award and will gain access to British Academy support for events for both academic and public audiences.

Financial Basis of the Scheme

The grant maximum is £130,000 across three years. Awards can be used flexibly: at least £90,000 for time buy out, and up to £40,000 for research and travel expenses and dissemination of findings. The funding is expected to be divided: first, to buy out time of day-to-day duties of the award-holder in order to focus on their research goals. Secondly, for travel and public engagement across the three years of the award to help with research costs and to undertake dissemination of the findings from the Fellowship research locally, nationally and globally. The funding is not offered on the FEC model and no institutional costs can be covered.

Timetable of the 2022-23 Competition

Competition Opens	12pm 21st September 2022
Application Deadline	5pm 30th November 2022
Decisions (notification via e-mail)	28th February 2023
Earliest Start date	Not earlier than 1st September 2023 and not later than 1st January 2024

Eligibility

Eligible applicants must be resident in the United Kingdom, within 9 years of the award of their doctorate, and have a permanent or fixed term post that covers the length of the award (three years) at a UK university or other research institution including museums and galleries. The eligibility window for this year's round of competition has been extended to 9 years (from 7 years) for this round of competition, it is expected to be as a one off to allow those that have had their careers disrupted and opportunities curtailed in the last two years because of the COVID-19 pandemic to apply. The British Academy understands the disruption that has been caused by the Covid-19 pandemic to those early in their careers, who have had to move to teaching online and have had their research, publishing and conference opportunities limited.

Applicants on part-time contracts are encouraged to apply as the scheme aims to be flexible in offering support, including those who have taken maternity leave or have caring responsibilities. Exemption from this criterion may be granted for reasons occurring after the date of the viva voce examination such as: maternity leave, illness, family commitments etc. The scheme encourages those working within Independent Research Organisations (IRO) to apply. The applicant must have a track record of research achievement consistent with the early career focus of the scheme, demonstrated through their previous academic work and public engagement activity. They should also demonstrate the potential for outstanding qualities of intellectual and academic leadership, especially through their track record of willingness to connect, collaborate and network. They must have shown exceptional talent and imagination in researching issues of global significance and be able to demonstrate their ability to engage a broad audience, both in the lecture theatre and via other modes of communication.

Applicants must have a mentor, either a Fellow of the British Academy (FBA) or another academic, during the course of the Fellowship, championing their project and their candidacy, a

mentor cannot be a referee. Applicants are responsible for contacting and obtaining the support of a mentor prior to the submission of their application. **Please note that the Academy does not expect the mentor to be based in the same institution as the applicant. Their role is to give academic support and guidance, not specific support within the institution at which the award-holder is employed.** See the British Academy website for a [list of Fellows](#):

Applications not completed correctly (including references) and on time will not be considered.

Host Institution

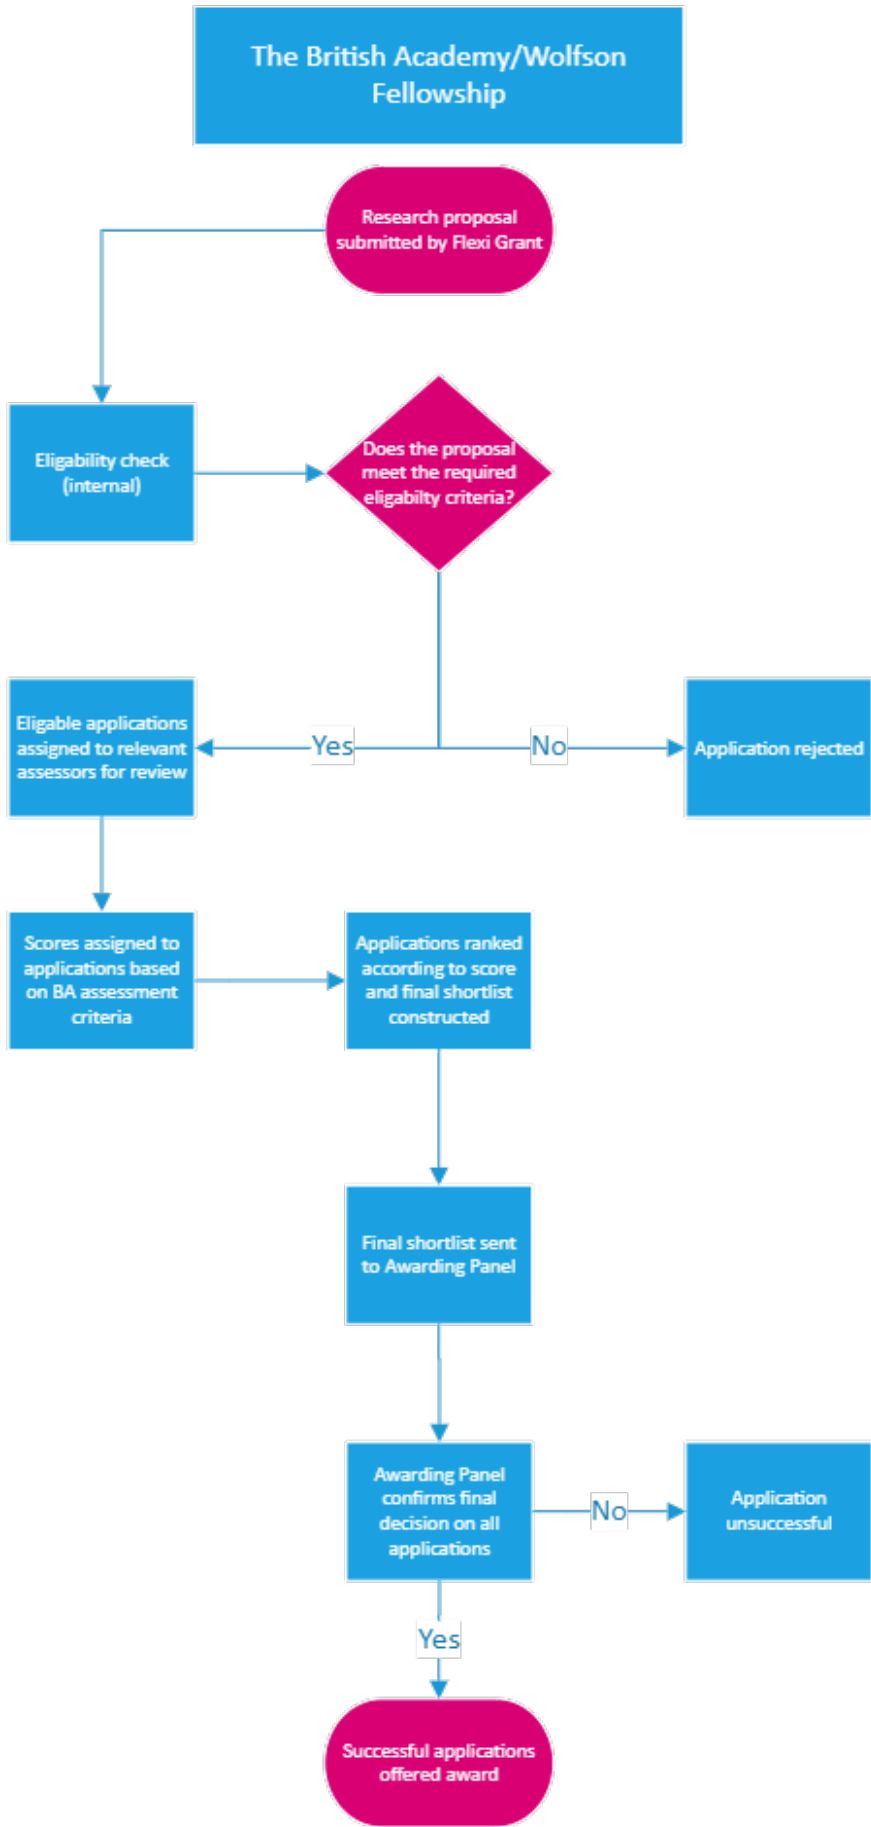

Applicants will be expected already to have a permanent or fixed term post at a UK university, IRO or other research institution which can provide a suitable environment and support for applicants. Applicants should have research, teaching and other related duties from which they would need to be released in order to heighten their focus on the research and engagement supported through the Fellowship. The British Academy welcomes applications from museums and galleries, including those with Independent Research Organisation (IRO) status.

The Selection Process

Assessors expect to assess the research achievement of the proposed focus for the Fellowship, and the quality of the public engagement activity to be undertaken during the award. They will look at the applicant's track record to date, bearing in mind the early career focus of the award, and at their potential to be leaders in research and public engagement. They will expect to be satisfied about the applicant's record in collaboration and their commitment to participation during and beyond the award.

There are no interviews prior to selection. All applicants will be notified of the outcome of the application by the end of February 2023. The approving organisation will be asked to give its consent before the award is confirmed.

The following page shows a flowchart diagram presenting the assessment process described above.

Notes on the British Academy Flexi-Grant® Grants Management System.

Personal details: When registered in the British Academy Flexi-Grant® GMS, a user has the option to add or update personal information such as contact details, log-in details (including email address and password), interests, research and employment details, at any time. This does not form part of the specific application form for any individual scheme but represents a personal record of your account in the system. Please keep this information up to date.

Automatic log-out: You are strongly advised to save your work regularly to prevent accidental loss of text. The Flexi-Grant website will automatically log people out if no activity is detected. It is recommended that you work offline in a separate word processor and copy and paste completed text online once complete.

Multiple sessions: Do not have multiple browser windows/tabs of your application open at the same time as this may cause information to be lost. Only one user should edit an application at a time.

Word limits: If you exceed the word limit, you will not be able to save the page you are working on. Longer-length text should be completed separately and backed up in a word processor.

Plain text: If entering plain text, please avoid using symbols as some may not be accepted by the Flexi-Grant: This includes the following symbols: < >

PDF documents: When uploading PDF documents, please add your name and a heading at the top of every page to show what the document is (e.g. CV or list of publications). Please avoid uploading documents containing illustrations with fine details or colour as this can cause problems when creating a PDF of the application. Each PDF cannot exceed 3Mb in size.

Email addresses: It is essential that you ensure your email address is up to date and actively monitored, or you may miss important notification emails.

Submission: You will not be able to submit your application until you have completed each section in full. **You should submit your application for approval by your host organisation at least five working days before the closing date to allow for your host organisation's administrative procedures. You should also check whether your institution has its own internal deadlines.** We strongly advise that you contact your referee as early as possible to avoid any last-minute issues before the submission deadline.

Application sharing: You can invite other contributors to join the application. All contributors must be registered on the Flexi-Grant grants management system and mark their work as 'Complete' before you can submit your application – including the referee.

Application deletion: You can delete your application at any time although it is often a lot easier to just re-edit your existing application. We will be able to recover a deleted application for a period of seven days after deletion. After this, it will be permanently removed from the system.

Application returned for editing: The Organisation Approver can return your application to you for further editing, but the original deadline remains in place.

Completing the application form

A full list of question fields to be completed as part of the application can be found in the table below. It is essential that you create a PDF of your completed application by clicking 'Print application' and check it thoroughly (including email addresses and uploaded PDF files) before submitting it for approval by your host organisation.

SUMMARY

Application summary page	NB When your application form is complete, the status for each page on the application summary page will say: 'Complete'. However, only AFTER all invited contributors to your application have clicked the ' Submit my Contribution ' button will the ' Submit for Organisation Approval ' button appear.
---------------------------------	--

PAGE 1: RESEARCH PROPOSAL

Subject area	Please select the subject area from the drop-down menu that is most relevant to this proposal.
Title of research proposal	In this field, please avoid using any unnecessary quotation or other punctuation marks (e.g. do not use quotation marks round the full title simply to indicate it is a title). Consider the presentation by checking the 'print application' option to ensure that the title appears as you wish it to.
Abstract	Please provide a short abstract summarising your proposed research in terms suitable for an informed general audience, not one specialised in your field. This is a mandatory field and the limit is 150 words.
Proposed programme	Please give a detailed description of the proposed research and engagement programme, including methodology. Applicants should be aware of the importance that assessors place on the viability, specificity and originality of the research and engagement programme and of its achievability within the timescale, which should be specified in the Plan of Action. The limit on this field is 2000 words.
Plan of action	Please indicate here a clear timetable for your research programme – please keep in mind that it is expected that there will be a balance between the conduct of new research and the public engagement with the findings. Part of the time may be devoted to planning and preparation and individual events may necessarily be more limited in timescale. Try to be as specific but realistic as possible. Your chances of award will be affected by the assessors' perception of how viable and realistic this plan is. The limit on this field is 800 words.
Plans for publication and dissemination	The aim of this award is to support research and engagement and both aspects should be clearly addressed. Please state in more detail in this field what plans you have for publication or other dissemination of your research, including potential publishers, journals,

	<p>conferences etc that are appropriate for your research subject. Please also note that public engagement activities need not be solely restricted to the dissemination of findings from the research conducted as part of the award, but can, with appropriate justification, include broader dissemination related to the research interests of the applicant. The limit on this field is 500 words.</p>
Project start/end date	<p>Please click the calendar button to select the start and end date of the proposed research. Please note that the earliest start date for awards in this round is 1 September 2023 and the latest start date is 1 January 2024.</p>
Proposed mentor	<p>Please provide the name of your proposed mentor and their role at the institution.</p>
Other participants/role of other participants/added value of collaboration	<p>Please list any other participants in the proposed research and engagement activity. Please note that this is a Fellowship award to an individual, and there is no role therefore for a 'Co-Applicant'.</p> <p>Please explain the roles that the other participants are going to play in the proposed research and engagement.</p> <p>Please state briefly what you see as the added value of collaboration over the proposed research and engagement.</p>
Significance and context	<p>Please explain briefly the project's intended audience and explain what impact it has already made or its potential impact on the subject.</p> <p>Please provide any examples of how material from the project, or scholarship derived from it, has permeated into outlets such as student or school textbooks, books aimed at a more general readership, or pieces in the media, or has otherwise contributed to popular culture. Do you have any plans for publishing more popular accounts of your work, if none already exist? Is there material arising from the project that might be appropriate for such treatment?</p> <p>This is a mandatory field and the limit is 500 words.</p>
Ethical issues	<p>It is not expected that any special ethical issues will arise that are not already covered by relevant professional Codes of Practice. The normal expectation, therefore, will be that applicants should answer the pair of questions 'Ethical approval obtained', no and no.</p> <p>If there are any special issues arising, but they have already been cleared by approval from a relevant authority, please answer yes and yes.</p>

	If any special issues arise and approval has not yet been obtained, please answer yes and no, and provide more explanation under 'Ethical approval (more information). This latter field is optional and does not need to be completed unless the answer to the earlier question is 'yes and no'.
Future collaborations	Do you anticipate that the proposed engagement will form the basis for future collaborative activity? If so, please give brief details here. This is an optional field, and the limit is 550 words.
Benefits to the UK	Is the proposed research and engagement activity likely to meet national challenges facing the UK? If so, briefly explain in what ways the UK more generally might benefit. This is a mandatory field, the limit is 550 words.
Benefits - international context	Is the proposed engagement likely to meet international challenges facing society? If so, briefly explain in what ways the benefits more generally might be spread to other countries. There is a 550 word limit.
Multidisciplinary proposal	If the proposed engagement is especially multidisciplinary in its approach, please explain in more detail here. This is an optional field.

PAGE 2: ELIGIBILITY

Primary and secondary subjects	Your application must be relevant to the Humanities and/or Social Sciences and you will need to select the relevant subject areas and fields from the drop-down list.
Time period, audiences, regional interests	These fields provide the opportunity to give further indications of the relevance of your subject area. They are optional fields.

Submission of Application

Once you have submitted your application for approval by your employing organisation, automatic emails will be sent to your employing organisation's approver asking them to log on to the system. You will not be able to edit your application after it has been submitted for approval. The organisation approver will either: approve and submit your application, 'send back' your application and contact you to request modifications or decline your application and contact you.

Please be aware that it is your responsibility to ensure that you complete your application in time for your organisation to process it (including requesting changes) and provide their approval by the closing date. It is recommended that you allow at least five working days for this process, but please check with your institution as their internal timetables may require earlier submission.

If your employing organisation approver requests modifications through the British Academy GMS email facility, they can unlock your application, allowing you to edit it. They can do this by selecting 'Return to Applicant'. An automatic e-mail will be sent to you alerting you of this fact. Once you have completed and saved the requested changes, please re-submit your application for approval by your organisation.

Once your organisation has approved your application and submitted it to the British Academy it will not be possible to make any changes.

Please note that once the closing date has passed, organisation approvers cannot approve applications and submit them to the British Academy and unapproved applications are removed from consideration. **Late applications will not be accepted.**

It is recommended that you check that your application is submitted in time. To see the details of the organisation approver and to check the status of your application, you should log into the British Academy GMS and click on the link to the Application Portal where a summary of your application will be displayed.

Outcome of Application

Once your application has been submitted and approved, you will not be contacted again by the British Academy until the decisions have been made, and you will not be required to do anything further in the GMS system. You can track the progress of your application by clicking on the link to the Application Portal where a summary of your application will be displayed. Please note that the eligibility stage is an internal process and you do not need to do anything for this. Whilst your application is under consideration, the 'Formal Offer' status will read as 'Decision Pending'. This means that a final decision has not yet been made. Applicants will be notified of the outcome of their application approximately **three months after** the closing date by email to the email contact address given on their application form.

Applicants in any doubt about their eligibility or any other aspect of their application are advised to contact the Research Funding Office at the Academy, where staff will be pleased to assist (contact details of the Research Funding Office can be found on the following page).

Code of Practice

The Academy has adopted a Code of Practice for assessing research applications, setting out the principles of equity, integrity and confidentiality governing the treatment of all applications for research support. Feedback is not a feature of this programme, and the Academy is, regretfully, unable to enter into correspondence regarding the decisions of the awarding Committee, which are governed by the Code of Practice. Submission of the signed application form constitutes the applicant's agreement to all terms, conditions and notices contained in the Notes for Applicants.

- 1.1. Part 1 of this Terms & Conditions of Award document sets out the standard terms and conditions for all British Academy awards. Additional terms and conditions specific to the British Academy/Wolfson Fellowship are outlined in Part 2.
- 1.2. The Conditions of Award should be read in conjunction with the Award Letter, and the British Academy's Code of Practice, which together set out the terms and conditions of the award. The Code of Practice is available on the British Academy's website and may be updated periodically.
- 1.3. The Host Organisation must ensure that the Award Holder, others supported by the Award and collaborators are made aware of their responsibilities and comply with these Conditions of Award and the Award Letter. Failure to comply with these terms and conditions will lead to termination of the Award and the British Academy reserves the right to recover the grant monies in part or full. For further information, please see Section 12: Compliance.

2. DEFINITIONS

- 2.1. **Award:** the award of a British Academy/Wolfson Fellowship as specified in the Award Letter.
- 2.2. **Award Letter:** the letter from the British Academy to the principal Award holder specifying the value and tenure of the grant that has been awarded.

- 2.5. **Data:** includes computational or curated data, and data that are produced by an experimental or observational procedure.
- 2.6. **Financial Statement:** a form that must be completed by the Host Organisation and submitted to the British Academy that sets out (i) the actual expenditure incurred by the Host Organisation during the Award period on the Award, (ii) the total amount awarded by the British Academy in respect of the Award, and (iii) any additional information that the British Academy requests from the Host Organisation.
- 2.7. **Host Organisation:** the University, institution, research council or other body at which some or all of the research funded by the award will be carried out or which employs the Award Holder(s), and which takes responsibility for the management of the research project and the

3. USE OF GRANT

- 3.1. Unless otherwise stated, all awards must be held in a research active institution.
- 3.2. The Award Holder and Host Organisation must ensure that the Award is used only for the activities specified by the British Academy.
- 3.3. The Award is to support the research project and related activities described in the application and against which performance will be assessed. If it is proposed to vary the project or programme in any significant way, prior approval must be sought from the British Academy.
- 3.4. The Award may be used only for eligible items as outlined in the scheme notes, and in accordance with the activities originally requested in the application. If any exceptions have been approved, they will be specified in the Award Letter.
- 3.5. The Host Organisation must ensure that sufficient resources are provided to support the activities described in the Award Letter. This includes adequate office and laboratory space and access to essential equipment and facilities.
- 3.6. Expenditure cannot be vired between budget headings without prior written permission from the British Academy.
- 3.7. Applicants must inform the British Academy of the outcomes of any other applications relating to the project. In cases where simultaneous applications to the British Academy and to another funding agency covering the same elements of a project are both successful, the applicant should decide which of the two awards to accept. Only if there is no duplication of expenditure under any of the budget heads, and no unnecessary inflation of a project, will an applicant be permitted to retain both awards (subsequent requests to alter the plan of research simply to allow the applicant to retain both awards are unlikely to be considered favourably). There is no objection to the applicant holding awards both from the British Academy and from another funding agency to cover separate elements of a project.
- 3.8. Any items of equipment that may have been exceptionally agreed, and any research resources purchased with the help of a British Academy grant, must be deposited on the expiry of the

grant with an institution (usually the recipient's home institution, or otherwise as agreed with the British Academy). Such items do not become the personal property of the Award Holder.

4. ACCEPTING THE OFFER AND PAYMENT

- 4.1. The Host Organisation will be the financial administrator of the award.
- 4.2. Awards are paid to the Host Organisation by electronic transfer (BACS).

The Award Holder must confirm acceptance of these conditions of award as part of the formal acceptance in the Flexigrant system before the grant is released.
- 4.4. Grants are cash-limited at the value stated in the Award Letter. There is no scope for increasing the level of grant awarded.
- 4.5. It is the responsibility of award holders to ensure that suitable arrangements have been agreed with the Host Organisation and any other partner institutions, whether in the UK or overseas, for the administration of the Award. This includes arrangements for the transfer of funds, if applicable, before the award begins. The British Academy expects the funds to be administered by institutions in accordance with their normal procedures for managing grant income. The British Academy will reconcile the expenditure incurred against payments made to ensure that any underspend on the Award is returned. Funding cannot be vired between budget headings to cover the cost of an overspend, any overspend must be met by the Host Organisation.
- 5.8. In the case of independent scholars, who have administered the award personally, receipts for single items over £100 must be provided. - 5.10. In the event that the requested interim or final reports, or statements of expenditure are not submitted, the Host Organisation's staff or affiliated / visiting researchers will not be able to apply or to be considered for British Academy funding until such reports or statement have been received, and are deemed satisfactory, with any underspend returned.

Requests for no-cost extensions received after the due end date of the Award will not be considered. If an extension is approved, the final report should be submitted as soon as the British Academy-funded phase of research is completed, within the agreed timescale.
- 6.4. The Award Holder or the Host Organisation must inform the British Academy without delay of any change to the status of the Award Holder, Co-applicant, or the Host Organisation that might affect their ability to comply with these Conditions of Award. The terms of the collaborative agreement must not conflict with the British Academy's Conditions of Award.

10.4. PART 2

SCHEME SPECIFIC CONDITIONS

British Academy/Wolfson Fellowship

The Academy will confer upon the successful applicant the title of *British Academy/Wolfson Fellow*.

The Fellowship is made to support the programme of research and engagement activity described in the application. It is unlikely that the Academy will agree to any significant variation of the proposed programme after an award has been made, and if it is proposed to make any such variation it is essential that **prior** approval is sought from the British Academy.

The Fellowship is expected to be held for a period of three years, from a starting date, to be agreed between the Academy, the award-holder and the host institution, not earlier than 1st September 2023 and not later than 1st January 2024. No award is renewable, but Fellows when they become alumni of the scheme are expected to continue to collaborate and network with subsequent award-holders.

Award-holders will be required to give an undertaking that they will devote themselves to the research and activity that the Academy will sponsor under this programme, including attendance at an induction event to be held at the British Academy premises in London.

The Fellowship is personal to the award-holder. It is not transferrable to another colleague in the same or alternate department of the employing institution. Requests for transfer to another employing institution during the award will be considered on a case-by-case basis by the Academy and may be agreed when the award-holder takes up a new post.

The Academy requires all activity that it funds to be conducted in an ethical manner. The employing institution is responsible for ensuring that any ethical issues relating to the proposed engagement are identified and brought to the attention of the relevant approval or regulatory body. Ethical approval must be granted by the relevant authority before any activity requiring approval begins.

USE OF GRANT

Grants may be used **only** for items eligible under the scheme, and in accordance with the type of items originally requested in the application. The items for which these grants may be used are set out in Table 1. If any exceptions have been approved, they will be specified in the letter of award.

Expenditure may be vired between budget heads, within reason. Small adjustments may be made without recourse to the Academy, but if any significant adjustment to the proposed expenditure is envisaged, prior permission should be sought from the Academy.

Applicants must inform the Academy of the outcomes of any other applications relating to the project. There is no objection to the applicant holding awards both from the Academy and from another funding agency to cover *separate* elements of the proposed engagement.

PAYMENT OF GRANT

Awards are paid to the award holder's relevant institution. Payment will be made by electronic transfer (BACS) quarterly in advance. The first payment will be scheduled so far as possible to coincide with the start of the award. The timing of payment is at the Academy's discretion, but every effort will be made to ensure that funds are released in good time. Please note that it may take up to 28 days for the initial payment transfer to be completed by the Academy's Finance Office.

It is the responsibility of award holders to ensure that suitable arrangements have been agreed with the relevant institution for the administration of their award before activity begins. The Academy expects the funds to be administered by institutions in accordance with their normal procedures for managing grant income.

Please note that the institution is responsible for accounting to the Academy for the use of the award, in all circumstances including the relocation of the principal investigator, in accordance with the Academy's rules on eligible expenditure set out in Table 1 below. Where the award is transferred to another institution, these provisions also apply. (Please note, this programme is not included in the FEC regime, and therefore some items of expenditure such as estates and indirect costs are not payable.) Grants are cash-limited at the value stated in the letter of award. There is no scope for increasing the level of grant awarded.

USE OF LOGOS

All awards are expected to make due reference to the support of the British Academy and the Wolfson Foundation through this programme. The logos of the British Academy and of the Wolfson Foundation should be present on the website, relevant promotional and printed materials, webpages and other materials – the Academy will supply appropriate versions.

REPORTS AND ACCOUNTS

Reports Award holders are required to submit an interim report each year on the anniversary of the start date on all research and activity carried out in relation to the award during the year. Further payments will not be released if an interim report is overdue. A final report will also be required within three months of the end date of the award which should provide an account of the full range of outcomes, actual and planned, from the award, including plans for future collaboration.

Accounts An itemised statement of expenditure should be provided by the award-holder's employing institution at the same time as the interim report. Unspent funds at the end of each interim year may be rolled over to the following year provided a reasonable justification for this is provided. A final statement of expenditure must be submitted as part of the final report form. The report will be deemed incomplete until the grant has been fully accounted for and any financial reconciliation made. Any remaining unspent funds at the end of the award must be returned to the British Academy.

OTHER DISSEMINATION

Due acknowledgement of the support received from the British Academy and the Wolfson Foundation should be made in any form of media communication, including media appearances,

press releases and conference literature. Please contact the Academy Press Office for approval for any press releases.

The award-holder is also asked to notify the Academy of any anticipated public activity related to this award when it is planned. By impact we mean making a significant contribution to an academic field and/or to policy and practice decision-making. This could be an impact in economic terms, affecting the profits of firms or the revenue of government, or in terms of having an impact on less quantifiable areas such as the environment, public health or quality of life.

COMPLIANCE

Persistent failure to comply with the conditions of award will result in the Academy writing to the Vice-Chancellor of the scholar's institution, and lead to the possibility of sanctions.

The sanction for non-compliance with the conditions of award is penalty-listing: that is, to disbar, sine die, the scholar concerned from applying to the Academy under any of its grant-giving schemes; and to disbar, for a period of two years, all members of that institution from applying to the Academy under any of its grant-giving schemes. In cases of grants awarded those who have left academic life without complying with the conditions of award, the sanction is to disbar, sine die, the individual from applying to the Academy under any of its grant-giving schemes.

ACCEPTANCE OF CONDITIONS OF AWARD

The award holder must confirm acceptance of these conditions of award as part of the acceptance before the grant is released. The Academy may at its discretion, terminate any award, and all obligations in respect of that award shall thereafter cease.
